Hyderabad, Telangana | 7799067163 | [E-mail address](#) | [LinkedIn Profile](#) | [GitHub Profile](#)

CAREER OBJECTIVE

AI & ML-focused Computer Science undergraduate seeking hands-on industry experience to apply technical knowledge and contribute to real-world projects.

EDUCATION : Bachelor of Technology– Computer Science & Engineering (AI & ML)

Sreyas Institute of Engineering and Technology, Hyderabad | CGPA: **8.51** | Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Core Concepts: Object-Oriented Programming (OOP), DBMS, Machine Learning & Deep Learning

Tools & Platforms: VS Code, GitHub, Jupyter Notebook

PROJECTS

Edge AI Violence Detection System | PyTorch, Computer Vision, YOLOv8, OpenCV [Github](#)

Developed an end-to-end violence detection framework for surveillance video using deep spatiotemporal learning. Implemented 3D CNN models (R3D-18, MC3-18, R(2+1)D-18) trained on the RWF-2000 dataset for automatic violence classification. Integrated real-time inference with YOLOv8 person detection, optical flow motion analysis, temporal smoothing, event logging, and alert generation. Optimized the MC3-18 model for edge deployment using short video clips and implemented SQLite-based alert storage for incident traceability.

Sentiment Analysis of Product Reviews | Python, NLP, Scikit-learn, Streamlit [Github](#)

Developed an NLP-based sentiment analysis system using TF-IDF and Logistic Regression on e-commerce review data. Implemented preprocessing and deployed as an interactive Streamlit app with GitHub version control.

Medibot – AI-Based Healthcare Chatbot | Python, NLP, Speech Recognition, Text-to-Speech, Machine Learning [Github](#)

Designed an AI-based healthcare chatbot for symptom analysis using NLP, with voice input, text-to-speech, and multilingual support. Published in the International Journal of Science and Technology.

Legal Rights Awareness Platform – Web-Based AI Project (IBM SkillsBuild) [Github](#)

Developed a web-based AI-enabled platform during a five-day hands-on workshop conducted under IBM SkillsBuild. The platform aims to provide users with clear and simplified information about fundamental legal rights through an easy-to-navigate interface. AI tools were used to generate understandable explanations of legal concepts for informational purpose.

CERTIFICATIONS

Python for Data Science – NPTEL Elite (March 2026) [certificate](#)

Google Student Ambassador – Google Gemini (Dec 2025) [certificate](#)

Artificial Intelligence Fundamentals – IBM SkillsBuild | Dec 2025 [certificate](#)

Programming in Java – NPTEL Elite | Apr 2025 [certificate](#)

Research Publication – Medibot Project (International Journal of Science and Technology) | May 2025 [certificate](#)

TATA GenAI Data Analytics Job Simulation – Forage | Jul 2025 [certificate](#)

Deloitte Technology Job Simulation – Forage | Jul 2025 [certificate](#)

Innovating with Google Cloud AI | Apr 2025 [certificate](#)
